

Dr. Vivek Dave
Director of Technology Development
Harting US

Dr. Vivek Dave is the Director of Technology Development for Harting US. Dr. Dave will be directing all North America related research activities, new technologies and projects with HARTING's key technology partners. Dr. Dave comes to HARTING with over 20 years of experience in early-stage development of advanced technologies involving manufacturing, materials and algorithms. He co-founded Sigma Labs in 2006 and since then, he's been involved in a number of start-up organizations, most notably Kinalco, which he co-founded with an MIT professor.

Dr. Dave holds a Bachelor's of Science degree in Engineering from the California Institute of Technology, a Master's Degree from MIT in Materials Engineering and a Ph.D. from MIT in Materials Engineering with a minor in Mathematics.
