

Uwe Roehm
Manager, Process Integration
Bosch in North America

Uwe Roehm is manager, process integration, for Bosch in North America. He is an expert in Industrial IoT (Connected Industry) and new technologies. He has held this position since 2015.

In this position Roehm works with Bosch plants in applying connectivity and new technology to production and logistics processes. He also consults with the Chicago Connector on distributed ledger technologies (an example of which is blockchain). In addition, he reviews, evaluates and consults with startups in DLT and Connected Industry.

Uwe Roehm received his graduate engineering degree (Diplom-Ingenieur) with a focus in logistics from the Technical University of Dortmund.
