

Imran Ahmed  
Founder & CEO  
Binfer

Imran Ahmed is the Founder & CEO of Binfer. Binfer is a secure communication platform that enables communication and data transfer without storing any information on third-party systems. He has Computer Science, MBA background, and over 20+ years of experience in designing & implementing technology solutions. He started his career at Novell Networking, worked for several startups in the Valley and finally landed in Chicago, where, after working for several years at CNA, launched full steam in Entrepreneurship.
